

## Maersk Line FCL rates

Maersk Line have Increased the Container Rates ex Europe and Asia to achieve what they refer to as a "Revenue Neutral Position" which will Result in an Increase of the FCL Rates and a reduction of BAF

Net result no change to overall pricing paid on that service

LCL- where we load on Maersk for LCL rates will increase for ocean and BAF will decrease, again no change to your costs.

This takes effect for sailings after April 1.
